April 2023

Dear friends in Christ,

I flew in Tuesday evening to Tallahassee at midnight from the Dominican Republic. I was there for two weeks with Missionary Carlos Concepcion. He is a Dominican who came to the states, got saved then later felt the Lord wanted him back in his country to reach them with the gospel. He and his family have been there for eight years.

There are many Haitians there and I went to try to reach some of them with the gospel. Bro. Carlos works in two cities there; Jarahacoa and La Vega. He works in Jarabacoa with another missionary and he started a work in La Vega. We did a lot of visiting with Haitians in both cities, but were not able to win any top the Lord. The first Sunday I was there I preached in English and Bro. Carlos interpreted into Spanish. We had one lady saved at that service.

We went out to a drug rehab facility where I preached and Bro. Carlos interpreted into Spanish. We had two men saved there. That evening back in Jarabacoa we met a forty-three-year-old man who wanted to go to he drug rehab place. We took him there and had another man saved.

All together we had four men and one lady saved. We sowed many seed, but God hasn't yet given the increase. We thank the Lord for the ones who were saved, but we couldn't reach many we had prayed we could reach.

The end of May is S.M.I.T.E. in Louisiana so we will be a part of that. Pray for the Haitian in the Dominican Republic and also for S.M.I.T.E. We usually have a good number of young people who surrender to full-time service for the Lord and for the kids we will be trying to reach in the communities in that area.

Yours for souls,

Bro. Daylon Hicks
