

VITO AOMI MISSIONARY TO THE HIMALAYAN PEOPLE

February 2023

Greetings from Himalayan Kingdom,

Thank you all for your prayers. Your mission dollars are making a big difference in the lives of the people of Northeast India and the surrounding countries. We praise God for your faithfulness.

We are experiencing growth in our student population at Nagaland Baptist College and we are making more infrastructure on our college campus. We have completed a lot of work and now have running water available to the girl's and boy's dormitory. We have just completed the 3rd story of the girl's dormitory. Construction on the third story of boy's dormitory has begun. We currently have 156 students on campus and with new additions to dormitories we are planning for 200 students.

We have begun construction of the second and third stories of Administration building which will provide needed space for additional classrooms, staff offices, and the established of the Nagaland Baptist School for grades Kindergarten through 12th grade. The plan is to begin our Christian School in 2024. Additionally, a fourth story will be added to the Administration building to provide temporary space for Chapel and Church services until separate building can be built.

We have started a Naomi ministry in which we are now helping widows. We have already held two monthly meeting and we are assisting 15 widows at this time by Gods grace. We provide the widows preaching and teaching along with food, medicine, and clothing. Many of these widows cannot work, so it is our responsibility as a ministry to provide for them.

We have begun construction of a church building along the India/Bhutan border providing church home for a class of people called Untouchables, who are a low caste Indian people who work in tea gardens. This is a new ministry we have started.

Over Christmas break, I traveled to northern India and baptized 8 people who had recently been saved.

Again, let me thank you for the opportunity you have given our ministry to reach the lost people of the Himalayan Kingdom. We pray at the beginning of another year in ministry, that our ministry partners will continue to support and pray for us in 2023.

God Bless You All.

In His Grace

Vito Aomi
